

BlueTag T10 is a Bluetooth data logger ideal for cold chain logistics and transport of various sensitive products. Data is remotely accessible by scanning the QR code via our APP, without opening the package. And the data will be automatically shared among other users, like the consignee, the driver and the consignee. BlueTag A100 is optional for audible and visual alarm.

Data synchronization among multiple users

Comprehensive data analysis, filtration and graphing

Geolocation optional

Report data filterable by minute at no cost

Paired by Bluetooth and review history by APP

Signature and email sending service for data report

EASY TO USE

- 

1 Download and install APP
- 

2 Press the button for 5 seconds to turn on the device
- 

3 Scan QR code on the device to add and configure it
- 

4 Put it in the package, stick the extra QR code on the package
- 

5 Scan QR code on the package
- 

6 Consignor and Consignee view the data and report synchronously

Model	BlueTag T10		
Temperature Range	-30℃~+70℃	Temperature Accuracy	±0.5℃ F.S.
Shelf Life	1 year	Memory Capacity	Max. 65,000 readings
Battery Life	1 year	Start Delay	0min ~ 72h
Wireless Connection	Bluetooth 5.2	Logging Interval	1min ~ 99min
Communication Distance	90m (Open air)	Alarms	Max. 6 alarms
APP Language	Chinese, English, French, German, Portuguese, Russian, Spanish	Battery	3.0V CR2032 lithium battery
Temperature Unit	℃, °F	Compatible O/S	Android / iOS
Weight	7.8g	Report Format	PDF, CSV
Installation	3M Adhesive tape	Dimensions	48mm*31mm*5mm

APPLICATION

BlueTag T10 Bluetooth temperature data logger is suitable for temperature monitoring in cold chain logistics, such as vaccine transportation, fresh food distribution, refrigerated transportation, and incubator transportation, etc.
